CAREER OBJECTIVE

Experienced Senior Zoho Developer with 4 years delivering scalable CRM, Creator, and Books solutions across B2B/B2C clients in manufacturing, finance, logistics, healthcare, travel Agency and real estate. Skilled in Deluge scripting, API integrations, and workflow automation, with a strong focus on user-centric design and digital process optimization. Proven success in managing international projects, collaborating with cross-functional teams, and mentoring junior developers. Passionate about driving innovation and business transformation through Zoho.

EXPERIENCE

- Dec 2024 | Wisethink Information Solutions (Zoho Premium Partner)
Sr. Zoho developer
 - Led the successful implementation of Zoho One for 100+ users, optimizing operations and automating workflows.
 - Integrated Zoho with external application using APIs, streamlining lead capture and tracking.
 - Provided user training, support, and ongoing system optimization
 - Worked across various client locations, delivering tailored solutions and on-site support.
- Feb 2024 - Dec 2024 | EKI Energy Services limited | Indore
Sr. Zoho developer
 - Led the successful implementation of Zoho One for 300+ users, optimizing operations and automating workflows.
 - Developed custom Zoho applications to address business needs, enhancing efficiency and collaboration.
 - Integrated Zoho with third-party applications, ensuring seamless data synchronization across platforms.
 - Provided training, support, and ongoing system optimization to maximize user adoption and productivity.
- Nov 2021 - Feb 2024 | CRM Masters Infotech LLP - Gurgaon
(Zoho Premium Partner)
 - Implemented Zoho One across 30-40 projects, optimizing business processes for clients in the healthcare, education, and IT sectors.
 - Worked closely with clients on-site to assess their needs, configure the Zoho suite, and ensure smooth integration with existing systems.
 - Delivered successful project governance and managed end-to-end execution, ensuring timely and cost-effective results.
 - Provided post-implementation support, including troubleshooting, user training, and ongoing optimization, resulting in enhanced operational efficiency for clients.
